UERRA Deliverable 7.7 : Web site annual Newsletters

In UERRA there have so far been three Newsletters published, once a year, and reflecting the progress during the preceding year and status at the time:

May 2015 – results from the first year of the project and much planning and defining the production, methods and data to be produced and archived. It includes material from the 2nd General Assembly in Tortosa at the end of January 2015. The articles in [Newsletter 1 can be found here](#).

April 2016 – results from the second year of the project with much data rescue of observations, early results of reanalyses and improved interpolation methods and software for evaluation presented. It follows the 3rd General Assembly in Toulouse in February 2016. The articles in [Newsletter 2 can be found here](#), together with a [compiled version in pdf](#).

January 2017 – results from the third year of the project with almost completed work with rescued data, probabilistic and improved interpolation methods and gridded data, reanalysis production and results, archives and data services. It includes a lot of material from the 4th General Assembly and Showcase Workshop in November 2016 at ECMWF in Reading. An [introduction can be found here](#) whereas the main part of the [Newsletter 3 is in the form of pdf](#).
